Xerox® DocuMate® 4440

The DocuMate 4440 is one of the fastest and easiest to use scanners in its class. With its advanced paper handling technology, integrated image enhancing software and a small footprint, the DocuMate 4440 is packed with features that will change how you look at and manage paper documents and information.

Total Flexibility

The versatility of the DocuMate 4440 makes it an attractive solution for users who need to scan plastic ID cards in addition to paper documents. Both can be scanned through the automatic document feeder (ADF) which holds up to 50 sheets **. Fast scanning speeds of 40 ppm and 80 ipm in duplex plus a 5,000 daily duty cycle means this scanner will be a high productivity addition to your document capture workflow, ready for anything.

Manage the Chaos

Ultrasonic Double Feed Detection is built into the DocuMate 4440 so that you'll never miss a page due to a misfeed or a stapled document going through the scanner. Visioneer Acuity software technology is integrated into the scanner driver so that you get perfect scans from imperfect originals. The Acuity software also eliminates the need to rescan documents through automatic cropping, straightening, brightness control and edge clean-up. All this is integrated into Visioneer® OneTouch® so your entire scanning requirements are achieved at the touch of a button. In the end, paper transforms into a controlled flow of searchable information.

Effortless Control

The DocuMate 4440 is powered by Visioneer OneTouch technology to scan documents instantly to one of 9 preset, yet completely configurable destinations. Visioneer OneTouch takes control of your document and scans it using the optimal settings for resolution, colour, duplex, auto-crop, auto-straighten, file format and then delivers it to virtually any application, folder or device at the touch of a button! Working together with Acuity image enhancing software, imagine the workflow possibilities of delivering perfect scanned paper documents in a searchable PDF format to email or Microsoft® SharePoint® or a custom web application for your enterprise, all at the touch of a button. Not only is this a productivity gain but greatly reduces the training requirements for scanner users, further helping your return on investment.

Visioneer OneTouch

Visioneer OneTouch is an easy-to-use utility that connects the DocuMate 4440 with a powerful set of scanner settings to greatly improve the efficiency of your workflow — so that with one touch, the document is scanned automatically to email, Microsoft Word, your printer, or simply a file folder.

In addition to scanning directly to all popular destinations, Visioneer OneTouch also links the DocuMate 4440 with industry-leading document management software, such as Xerox® DocuShare®, Microsoft SharePoint, and DocuWare® — forming an easy-to-use workflow from paper to a selected destination. A Software Development Kit (SDK) is also available which provides the ability to develop specific links and integrate them into the Visioneer OneTouch control panel quickly and easily.

Visioneer Acuity

Acuity enables your scanner to instantly improve the visual clarity of every document that you scan. Using advanced algorithms and dynamic thresholding Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy, and save time.

Nuance® PaperPort®

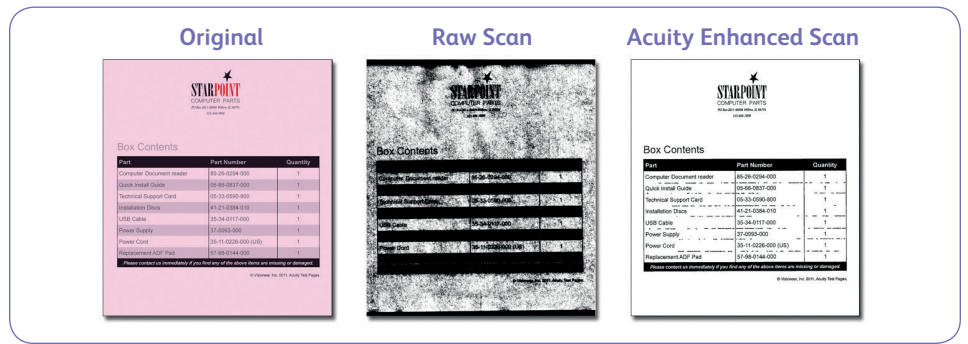

Millions of professionals rely on PaperPort to save time and money by transforming paper documents into searchable digital documents. PaperPort combines the efficiency of document management, the convenience of superbly scanned documents and the power of creating PDF files, to bring a new level of operational proficiency to your organisation.

Nuance PDF Converter

Nuance PDF Converter is the smarter PDF software choice for businesses. Combining powerful functionality, superior Microsoft Office® support, built-in intelligence, DMS integration, and intuitive ease of use, Nuance PDF Converter provides everything you need to create, convert, edit, assemble, and securely share PDF files for increased productivity, enhanced collaboration, and improved compliance.

Nuance OmniPage® Pro

OmniPage Pro provides a precise OCR and layout retention solution, quickly turning scanned documents into editable, formatted text. The text can then be used in virtually any word processing, desktop publishing or web publishing program.
